• PROFILE

Full-time Automation Engineer with 3 years of experience in Software Development. My expertise spans Fullstack roles, working with diverse languages such as Node.js, PHP, JS and Python. Committed to continuous improvement and personal growth, I actively pursue self-betterment through certifications on various educational platforms. I have successfully managed MERN projects, showcasing my proficiency. Additionally, I have deployed multiple products on platforms like Railway and Netlify. I am continually exploring new technologies and methodologies to stay current and at the forefront of software development. Recognizing the pivotal role of teamwork in every project, I am eager to contribute my skills and knowledge to innovative challenges.
